

How to play

The goal of the game is to be the last one standing. Each player can place a bomb that will explode after a few seconds.

Blocks hit by the explosion are destroyed and players caught in an explosion are out of the game. When a block is destroyed, there is a 20% chance it will contain a powerup that will affect the bombs of the player who grabs it.

Each character has a unique quirk that makes each game interesting and allows for different strategies.
